SECTION 1: CARE MANAGEMENT PROGRAM OVERVIEW

Purpose of the Care Management Program

The care management program is intended to ensure that Alaska Medicaid recipients are provided appropriate medical services in accordance with state and federal regulations, statutes, and policies.

Definitions of Utilization Management and Case Management

Qualis Health uses the following URAC definitions of utilization management (UM) and case management (CM):

- **Utilization Management**: Evaluation of the medical necessity, appropriateness, and efficiency of the use of healthcare services, procedures, and facilities under the provisions of the applicable health benefits plan; also known as “utilization review.”

- **Case Management**: A collaborative process of assessment, planning, facilitation, and advocacy for options and services to meet consumer health needs through communication and available resources to promote quality cost-effective outcomes.

UM and CM work together for:

- Appropriate use of healthcare services
- Efficiency or cost-effectiveness
- Quality of care

Comparison of Utilization Management and Case Management

</tbody>
</table>

1 Unless otherwise indicated, the term Medicaid refers to both Medicaid and Denali KidCare.
About Qualis Health

Corporate Background and Experience

Qualis Health is a private, nonprofit healthcare QIO with more than 40 years of experience in providing utilization review, case management and quality improvement services. Qualis Health is one of the nation’s leading population healthcare consulting organizations, helping to transform care and improve care delivery and patient outcomes. We work with clients throughout the public and private sectors to advance the quality, efficiency, and value of healthcare for millions of people every day.

Programs offered include traditional utilization management services, such as pre-service, concurrent, retrospective chart and telephonic review, coding validation, and medical consultation. Services designed for the managed care arena include the early identification of high-risk patients, specialty referral management services, consumer advocacy services, and audits of access to care.

History of Medicaid Utilization Review and the QIO Program in Alaska

Qualis Health began offering utilization review services for the Washington State Medicaid program in 1975. We expanded our utilization review services to private industry in 1979. We have been a presence in Alaska’s private-sector market since 1984, when we added our first care management client. In 1985, Qualis Health was awarded the utilization review contract with Alaska Medicaid.

Mission, Vision and Values

- **Mission**: To generate, apply and disseminate knowledge to improve the quality of healthcare delivery and health outcomes
- **Vision**: To be recognized for leadership, innovation and excellence in improving the health of individuals and populations
- **Core Values**: Integrity and professionalism, collaboration, and stewardship
SECTION 2: COMMUNICATING WITH QUALIS HEALTH

Business Hours
Qualis Health’s regular business hours are Monday through Friday, 6:30 am to 5:00 pm Alaska Time, excluding scheduled holidays.

Contact Information
You can contact Qualis Health via the QHPP, fax, telephone, mail and email.

<table>

For detailed contact information, including staff email addresses, see Appendix C, Key Contacts for Qualis Health and Alaska DHCS, or visit our website: http://www.qualishealth.org/healthcare-professionals/alaska-medicaid-division-health-care-services/contacts.

Voice Mail
Qualis Health’s voice mail system is available 24 hours a day. If you call after business hours, or if no one is available to answer your call during regular business hours, you may leave a confidential voice mail. We check voice mail frequently throughout the day. We retrieve messages left outside regular business hours first thing on the next business day and return those calls by 12:00 noon Alaska Time.

Submitting UM Reviews via the Internet
Providers must submit all utilization management reviews via the QHPP web-based review system.

Qualis Health offers secure web-based review capability using the QHPP, ZeOmega’s browser-based product that uses the Internet to create a two-way link that can be used to exchange care management data, thus facilitating real-time online approvals. Qualis Health also maintains dedicated toll-free phone and fax numbers for Medicaid providers who do not have Internet access to request review services.

The QHPP offers immediate feedback from Qualis Health regarding your review request. Reviews submitted via the QHPP receive notification of the final determination.
via the QHPP, and the certification number is posted to the QHPP. By using the QHPP, you do not need to wait for a phone call or a fax document to learn of the final determination.

For requests that are not submitted through the QHPP, Qualis Health communicates the determination and the certification number to providers via phone or fax.

Qualis Health sends letter notifications for all non-certified reviews and appeal reviews within one (1) business day of the determination. These notifications are sent to the recipient, DHCS and the attending physician.

Providers must designate a Portal Administrator, who completes and submits a registration packet. Once Qualis Health receives the registration packet, we create a group account for the provider and assign a QHPP ID and password to the Portal Administrator. The Portal Administrator assigns individual IDs and passwords to provider staff members. Once trained, providers can log in to the QHPP and directly enter information for the admission (i.e., initial review, continued stay/concurrent review or retrospective review request).

To get more information about the QHPP, or to learn how to submit web-based review requests, you can:

- Call Qualis Health’s Alaska office at (888) 240-0437

If you do not have Internet access, call Qualis Health’s Alaska office toll-free at (888) 240-0437 for instructions on submitting your review.
SECTION 3: COMPLIANCE WITH URAC UTILIZATION REVIEW STANDARDS

Qualis Health complies with URAC health utilization management (UM) standards when performing utilization reviews. These standards provide a process for conducting a utilization review that is clinically sound and respects recipients’ and providers’ rights. URAC standards ensure that only appropriately trained, qualified clinical personnel conduct and oversee the utilization review process; that a reasonable and timely appeals process is in place; and that medical decisions are based on valid clinical criteria. Some frequently asked questions about the process of making utilization review decisions are answered next.

Frequently Asked Questions About Utilization Review Decisions

1. **Who makes utilization review decisions?**

   URAC Health UM Accreditation requires Qualis Health to use a three-step process to determine if a proposed medical treatment or service is medically necessary:

   a. **Initial Clinical Review:** A licensed health professional, such as a registered nurse, licensed practical nurse, occupational therapist, physical therapist or social worker conducts this first critical step of the review process using InterQual® medical necessity criteria and, as applicable, contract-specific criteria. If the clinical information provided does not meet InterQual criteria or, if in the clinical reviewer’s judgment a physician should review the case, it is referred for peer clinical review.

   b. **Peer Clinical Review:** A licensed physician qualified to render a clinical opinion about the proposed treatment or service performs a peer clinical review by evaluating all available information to determine whether or not care should be certified. When a non-certification decision is made, the attending physician can discuss the review and proposed care with a Qualis Health physician prior to final determination (“doctor-to-doctor conversation”). If the result of that conversation is not satisfactory to the attending physician, an appeal process is available. See Questions #2 and 3 in this section for more information about doctor-to-doctor conversations.

   c. **Appeal Process:** A recipient or a provider may initiate an appeal. Appeal review is performed by a qualified, board-certified physician within the same specialty but not involved in the initial review decision. The process must be expedited, if requested.

2. **Why are doctor-to-doctor conversations important?**

   Doctor-to-doctor conversations allow treating providers to discuss UM determinations with a Qualis Health physician, with the goal of resolving disagreements before the formal appeal process is initiated.
3. **What are the time frames for doctor-to-doctor conversations?**

Qualis Health makes doctor-to-doctor conversations available for potential non-certifications. When Qualis Health makes a non-certification decision, we send an Alaska Division of Health Care Services Denial Notice that includes information about fair hearing and appeals rights. This letter also contains a Provider Notice with instructions for the provider in the event they disagree with our determination.

Providers can have their attending physician request a doctor-to-doctor conversation to discuss a non-certification decision with Qualis Health’s reviewing doctor to pursue service approval. If the case is non-certified after the doctor-to-doctor conversation, the stay is non-certified retroactively to the day medical necessity was not met. Requesting a doctor-to-doctor conversation does not affect the time requirement for requesting an appeal. To request a doctor-to-doctor conversation, call (877) 292-2615. The request must be made within 60 days of the date of the letter.

4. **What recourse is there when I disagree with a determination?**

Qualis Health’s written notice of non-certification decision contains instructions for initiating an appeal of the non-certification. See Section 16 of this manual for details of the appeal process. If, after an appeal, you still disagree with our determination, your appeal letter outlines the steps to request a hearing with DHCS. Section 16 has more information about this process.

5. **What is considered an urgent review?**

An urgent review is performed when an episode involves urgent care. An episode is considered to involve urgent care whenever the application of the time periods for making non-urgent care determinations (a) could seriously jeopardize the life or health of the recipient or the ability of the recipient to regain maximum function, or (b) in the opinion of a physician with knowledge of the recipient’s medical condition, would subject the recipient to severe pain that cannot be adequately managed without the care or treatment that is the subject of the episode.

6. **How are review time frames determined?**

The number of days allotted for each type of review is based on URAC Health Utilization Management Standards. It is different for urgent review than it is for non-urgent review. If the review requires additional information, clinical peer review or a peer-to-peer conversation, additional time is allotted.
7. **What are the time frames for completion of urgent reviews?**

When all necessary clinical information has been received and no referral for clinical peer review is needed, the time frames for completion of urgent reviews are as follows:

<table>
<thead>
<tr>
<th>Review Type</th>
<th>Time Frame for Completion</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pre-service review—Urgent</td>
<td>Three (3) calendar days</td>
</tr>
<tr>
<td>Concurrent review—Urgent</td>
<td>Three (3) calendar days</td>
</tr>
</tbody>
</table>

8. **What are the time frames for completion of non-urgent reviews?**

When all necessary clinical information has been received and no referral for clinical peer review is needed, the time frames for completion of reviews are as follows:

<table>
<thead>
<tr>
<th>Review Type</th>
<th>Time Frame for Completion</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pre-service review—Non-urgent</td>
<td>Fifteen (15) calendar days</td>
</tr>
<tr>
<td>Concurrent review—Non-urgent</td>
<td>Three (3) calendar days</td>
</tr>
<tr>
<td>Retrospective review</td>
<td>Thirty (30) calendar days</td>
</tr>
</tbody>
</table>

When additional information is required to complete the review, the timeline is adjusted accordingly. Qualis Health may exercise a single extension of up to 15 calendar days on non-urgent reviews when circumstances beyond our control require an extension. When this occurs, we inform the provider, by the date on which notice of the initial decision would normally be due, of the circumstances that require the extension and the date by which we expect to reach a decision.

9. **What is the three-day benchmark?**

All stays that do not require pre-admission review must be reviewed if the hospital stay is expected to exceed three (3) days. This is a concurrent review, and it is referred to as the three-day benchmark. With the three-day benchmark, a review must be obtained if patient is not discharged by the third day (day of admission is day one). The review must occur on or before day four of the stay.
10. **What is the exception to the three-day benchmark?**

The length of maternal and newborn stays related to childbirth is the exception to the three-day benchmark. The length of maternal and newborn stay related to childbirth is:

- Vaginal delivery: 48 hours from delivery (delivery/birth is the day after admission, and discharge is within two [2] days of delivery)
- Cesarean delivery: 96 hours from delivery (delivery/birth is the day after admission, and discharge is within four [4] days of delivery)

In some instances, maternal and newborn stays do not require review for medical necessity and may be issued administrative authorizations from the Division of Health Care Services’ fiscal agent, Conduent State Healthcare. See Exhibit 17, Maternal Newborn Length of Stay, for more information.
SECTION 4: HIPAA

Business Associate Standing

Qualis Health provides care management services on behalf of its clients and is considered a "Business Associate" of these clients under the Health Insurance Portability and Accountability Act (HIPAA) "Administrative Simplification" regulations governing patient health information. These regulations include the Standards for Privacy of Individually Identifiable Health Information ("Privacy Rule") and the Security Standard ("Security Rule").

DHCS Letter to Alaska Medicaid Providers

On April 18, 2003, the Division of Health Care Services (DHCS) sent a letter to Alaska Medicaid providers regarding its position on HIPAA. The text of that letter is presented on the next page.
To: Alaska Medicaid Provider

From: State of Alaska Department of Health and Social Services
Division of Health Care Services and Qualis Health

Re: Health Insurance Portability and Accountability Act (HIPAA) Uses and Disclosures of Protected Health Information General rules of 45 CFR 164.502(a)(1)(ii), (iii) and 45 CFR 164.502(e)(i); and Uses or Disclosures to Carry out Treatment, Payment, or Health Care Operations 45 CFR 164.506.

Under the Health Insurance Portability and Accountability Act (HIPAA) of 1996, the Department of Health and Social Services (DHSS) is considered a covered entity. As a covered entity, all of the Divisions within DHSS, such as the Division of Health Care Services (DHCS), may contract with organizations to support the Divisions in the performance of their duties. These organizations are referred to under the HIPAA Privacy rules as business associates.

Qualis Health is considered a Business Associate for DHCS.

As a Business Associate, Qualis Health is permitted to receive Protected Health Information (PHI) in order to conduct their contracted work. Also, as a Business Associate of DMA, Qualis Health is allowed under HIPAA to obtain PHI related to Medicaid or Chronic and Acute Medical Assistance (CAMA) patients from providers and others without obtaining written authorization from the patient. This is allowed when Qualis Health is conducting functions that are related to treatment, payment, or health care operations (TPO).

Qualis Health’s goal is to continue to conduct operational activities for the DHCS program while complying with the applicable HIPAA regulations.

If there are any questions regarding this issue, please contact one of the following representatives for further clarification:

- Susan Dunkin, DHCS, at (907) 269-3638
- Deon Westmorland, Qualis Health, at (206) 288-2347
SECTION 5: PROVIDER BILLING CONCERNS

Claim Discrepancies

We encourage you to thoroughly examine discrepancies in claims for accuracy prior to contacting Qualis Health. To review claims, log on to the Conduent State Healthcare provider portal at www.medicaidalaska.com or call Conduent Provider Inquiry at (907) 644-6800 or (800) 770-5650 (toll-free in Alaska).

You may call Qualis Health to investigate discrepancies that have caused or have the potential to cause a claim to fail. Some examples of such discrepancies are:

- The date(s) on the Qualis Health review does not match the certified admission or discharge date on the claim
- Admitting or principal diagnosis and/or all procedure code(s) on the Qualis Health review do not match the code(s) on the claim
- Incorrect recipient Medicaid Identification number indicated on the Qualis Health review
- Case ID number used for billing does not match the case ID number on the Qualis Health review. (Be sure to note the case ID number on the claim.)

Certification Modifications

Sometimes information changes between the time the certification is completed and the time of billing. If information updates are necessary and the case has not been closed, you can request these updates using the QHPP. If the review is already closed in the QHPP, call Qualis Health to request the updates.

After we make your requested changes, we provide you with confirmation. For changes requested via the QHPP, we provide confirmation via the QHPP. For changes requested via other means, we provide telephone confirmation. We also communicate these changes to the fiscal agent.

Changing diagnosis, procedure, dates of service, or eligibility may result in further review. We notify you if additional review is required.

Contingency for Payment

Qualis Health certification indicates only that the admission is medically necessary. This certification does not guarantee payment for services rendered. Payment is contingent upon eligibility and compliance with the rules and regulations that govern Medical Assistance in Alaska.
This page intentionally blank.
SECTION 6: MEDICAID ELIGIBILITY AND THIRD PARTY LIABILITY

Providers are responsible for evaluating eligibility and third party liability prior to submitting review requests to Qualis Health.

For questions regarding eligibility or other insurance coverage, log on to the Conduent State Healthcare provider portal at www.medicaidalaska.com or call Conduent Provider Inquiry at (907) 644-6800 or (800) 770-5650 (toll-free in Alaska).

Eligibility Categories

There are more than 25 eligibility categories under which an individual may be approved for Medicaid. Each eligibility category is assigned a distinct eligibility code, which is printed on the recipient’s Medicaid card or coupon.

Covered services may vary based on eligibility category. Each category provides coverage for mandatory services, and may provide coverage for additional, optional services. For more information about covered services, refer to the Alaska Medicaid provider billing manuals at http://medicaidalaska.com/providers/Billing.shtml or contact Conduent Provider Inquiry.

Eligibility Verification

Providers are responsible for verifying eligibility before submitting review requests. Medical assistance cards and coupons and/or the Eligibility Verification System can help you verify patient eligibility.

ID Cards and Coupons

The Department of Health and Social Services (DHSS), Division of Public Assistance (DPA), produces and distributes medical assistance cards that verify a recipient’s eligibility. Cards and coupons contain the eligible recipient’s name, identification number, date of birth, eligibility month and year, and eligibility code. Cards and coupons also contain a Resource Code that indicates if the recipient has a payment source in addition to medical assistance. Refer to your billing manual from the fiscal agent for further clarification.

Eligibility Verification System

The fiscal agent provides and maintains the Eligibility Verification System (EVS) to help providers determine recipient eligibility. Each enrolled provider receives a unique EVS PIN and instructions for using EVS. You can use EVS to verify recipient eligibility with a touch-tone phone 24 hours a day, seven days a week at (800) 884-3223.

To verify eligibility, log on to the Conduent State Healthcare provider portal at www.medicaidalaska.com or call Provider Inquiry at (907) 644-6800, option 1, 2 or (800) 770-5650, option 1, 1, 2 (toll-free in Alaska).
Third Party Liability and Dual Eligibility

There are instances in which Alaska Medicaid recipients could be covered under another insurance or program, and the requirements for review may vary. Medicaid recipients may also be eligible for Medicare or other health insurance, which can impact review requirements. Reviews are not required in the following instances:

<table>
<thead>
<tr>
<th>If the requested service is</th>
<th>And the individual has</th>
</tr>
</thead>
<tbody>
<tr>
<td>Inpatient</td>
<td>Medicare Part A (unless the requested service is not covered or if benefits have been exhausted)</td>
</tr>
<tr>
<td>Outpatient</td>
<td>Medicare Part B (unless the requested service is not covered or if benefits have been exhausted)</td>
</tr>
</tbody>
</table>
| Inpatient or Outpatient    | Other third party health insurance coverage (e.g., Blue Cross, Aetna)  
For Medicaid purposes, eligibility to access healthcare through the Indian Health Service (IHS) is not considered a third party liability. |
SECTION 7: UTILIZATION REVIEW PROCESS OVERVIEW

Submission Modes

Providers must submit review requests via the web using the Qualis Health Provider Portal. The QHPP allows you to directly enter the information required for pre-service, concurrent and retrospective review requests.

Eligibility Verification

Providers are responsible for verifying eligibility before submitting review requests. To verify eligibility, log on to the Conduent State Healthcare provider portal at www.medicaidalaska.com or call (907) 644-6800 or (800) 770-5650 (toll-free in Alaska). Refer to Section 6, Medical Eligibility and Third Party Liability, for more information about eligibility verification.

First-level Non-physician Review

Qualis Health provides all utilization review services in accordance with URAC health UM standards. URAC recognizes two levels of review: clinical review (first-level review) and peer clinical review (second-level review).

The first-level review process begins when a facility, provider or patient requests a review from Qualis Health. We collect basic demographic information and enter the case into our care management system. A clinical reviewer then performs the review using InterQual medical necessity criteria and, as applicable, contract-specific criteria. InterQual criteria are based on well-researched medical evidence that is reviewed and updated annually by McKesson.

Qualis Health currently uses the following InterQual criteria sets for non-physician utilization review:

- Acute (Adult and Pediatric)
- Behavioral Health
- Rehabilitation (Inpatient, Outpatient and Chiropractic)
- Surgical Procedures (Adult and Pediatric)
- Home Care
- Sub-acute Care
- Skilled Nursing Care
- Long-term Acute Care
- Durable Medical Equipment
- Imaging

If medical necessity and appropriateness of the level of care can be established through the application of these criteria, the clinical reviewer approves the procedure or the admission for an appropriate number of days and notifies the requestor of the certification.

When the requested services involve inpatient treatment, the clinical reviewer uses InterQual criteria to identify an appropriate LOS and set a “next review” point for concurrent review, and then notifies the requestor of the certification.
If appropriate level of care and/or medical necessity criteria are not met, secondary medical review is required and the case is referred to a Qualis Health medical director or physician/practitioner consultant (P/PC).

**Second-level Peer Review**

The Qualis Health physician reviewer evaluates the information they have received and uses their specialty expertise and clinical judgment to make the second-level review determination. The physician reviewer has up-to-date reference materials and guidelines available to help ensure their review determination is founded on current evidence-based best practices and accepted standards of practice.

When a non-certification decision is made, Qualis Health notifies the provider via the QHPP and telephone. Qualis Health also sends an Alaska Division of Health Care Services Denial Notice with information about fair hearing and appeals rights. The notification letter contains instructions for the provider in case they disagree with our determination.

Requesting a doctor-to-doctor conversation does not affect the time requirement for requesting an appeal. To request a doctor-to-doctor conversation, call (877) 292-2615. The request must be made within 60 days of the date of the letter.

Providers may request both a doctor-to-doctor conversation and an appeal. If the doctor-to-doctor conversation does not occur within this time frame, Qualis Health issues a non-certification determination. If the doctor-to-doctor conversation does occur, Qualis Health issues a determination following the discussion.
SECTION 8: WEB-BASED UTILIZATION REVIEW SUBMISSIONS

Purpose
The Qualis Health Provider Portal (QHPP) allows physicians, facilities and other healthcare providers to submit utilization review requests to Qualis Health using a secure Internet connection.

Responsibility
Providers must submit all utilization management reviews via the QHPP web-based review system.

Requirements
The Qualis Health Provider Portal requires:

- Internet access
- Provider account setup
- Individual user registration
- Completion of training

More information about the QHPP is on Qualis Health's website at: http://www.qualishealth.org/healthcare-professionals/alaska-medicaid-health-care-services/provider-resources

Process and Procedures

Submission
If you have already received QHPP training from Qualis Health, submit your review requests via the Internet at https://qualishealthpp.zeomega.com.

Required Review Documentation
The following basic information is needed for each review/request:

- Recipient name
- Recipient birth date
- Complete recipient address
- Recipient telephone number
- Sex of recipient
- Recipient Medicaid ID number
- Physician name
- Physician address
- Physician phone number
- Physician Medicaid provider number
- Facility address
- Facility phone number
- Facility Medicaid provider number
- Current principal diagnosis and ICD-10-CM code(s)
- Procedure(s) to be performed, including the ICD-10-CM code(s) and/or CPT code(s)
- Justification for the hospitalization and/or recipient symptoms
- Treatment proposed/provided
- Admit date and/or surgery date
Medical Necessity Screening

Once we receive all information needed for the review, a Qualis Health clinical reviewer assesses that information using established criteria to determine whether the condition of the recipient meets the Severity of Illness (SI) and Intensity of Service (IS) requirements for the level of care and the type and number of services requested. If the criteria are met, the clinical reviewer issues a reference ID number and the review is certified. They also determine a length of stay and establish the date for a concurrent review if the recipient has not been discharged. Refer to Exhibit 1, Pre-service Review Flow Chart.

Qualis Health certification indicates only that the admission or procedure is medically necessary. This certification does not guarantee payment for services rendered. Payment is contingent upon eligibility and compliance with the rules and regulations that govern Alaska Medicaid/Denali KidCare.

Second-level Peer Review

When episodes do not meet the criteria, the clinical reviewer refers those episodes to a Qualis Health physician reviewer (medical director or P/PC) for clinical peer review. The physician reviewer evaluates the clinical information and either certifies the admission or issues a potential non-certification. In the event of a potential non-certification, the attending physician can request a discussion with the Qualis Health physician reviewer (doctor-to-doctor conversation). If a doctor-to-doctor conversation is requested, our physician reviewer and the recipient’s attending physician discuss the treatment plan, as well as appropriate alternatives. Following this discussion, Qualis Health either certifies or non-certifies the admission. See Section 3, Questions #2 and 3, for more information about doctor-to-doctor conversations, including the time constraints for holding those conversations.

Non-certifications

If the physician reviewer non-certifies the admission, Qualis Health notifies the appropriate provider (e.g., attending physician, facility) via the QHPP and telephone. We also send non-certification letters to the recipient, attending physician, facility and the Department within one (1) working day.

The non-certification letters contain justification for the non-certification and an explanation of the right to request an appeal of Qualis Health’s initial non-certification determination. Refer to Section 16 of this manual for a detailed description of the appeal procedure.

The provider may request both a doctor-to-doctor conversation and an appeal. Requesting a doctor-to doctor conversation does not affect the time requirement for requesting an appeal.

The Department does not reimburse providers for services that are non-certified by Qualis Health, with the exception of non-certifications that are reversed as the result of an appeal review by Qualis Health or a provider appeal or recipient fair hearing by the state.
Questionnaires

In order to help you provide appropriate clinical information, the QHPP contains questionnaires and checklists associated with specific procedures and diagnoses. QHPP questionnaires and checklists are available at http://www.qualishealth.org/healthcare-professionals/alaska-medicaid-health-care-services/provider-resources.

Submitting Retrospective (Retro) Reviews

To submit a retrospective medical/surgical review via the QHPP, start by selecting “retrospective” from the “treatment type” dropdown box. Include targeted clinical information to support medical necessity. Include weekly clinical progress notes and/or team meeting progress notes if applicable.

Document the following information in the Communication field:

- Verification of Medicaid eligibility
- Admit and discharge dates (if applicable)
- Previous case ID# (if applicable)
- Reason for retro request (e.g., eligibility established while inpatient, review submission late)
- Contact name and phone number

Reviews with a length of stay start date more than 365 days in the past cannot be submitted via the QHPP. Contact Qualis Health for instructions.

Time Frames

The most common time frames for completion of reviews submitted via the QHPP are listed below. These time frames adhere to URAC guidelines, and are measured beginning with the date of notification to Qualis Health.

<table>
<thead>
<tr>

SECTION 9: PRE-SERVICE UTILIZATION REVIEWS

Purpose
Care management best practices indicate that the most effective form of review takes place before the recipient enters the facility. The chief advantage is that medically unnecessary admissions can be avoided.

DHCS has determined that certain select diagnoses and frequently performed procedures require pre-service review. These medical conditions and procedures are listed in Appendix A.

The Department has varying requirements for pre-service reviews. Surgical necessity review is required for select inpatient and outpatient non-urgent surgical procedures. Medical necessity review is required for select medical conditions to assure that inpatient hospitalization is warranted.

Responsibility
The recipient’s attending physician is ultimately responsible for obtaining the pre-service review from Qualis Health. The attending physician is most knowledgeable about the recipient’s medical history and condition. However, Qualis Health accepts requests for pre-service review from surgeons, physician office personnel and facility personnel (e.g., utilization review coordinator, admitting office, patient accounts office). Providers must submit all utilization management reviews via the QHPP web-based review system. Qualis Health must receive all of the appropriate clinical information to satisfy criteria before we certify a pre-service review.

Requirements
Pre-service review is required for all inpatient admissions and outpatient procedures on the Select Diagnoses and Procedures List (Appendix A). However, review is required only if the admitting/principal diagnosis or procedure (inpatient and outpatient) is on the select list and the facility is approved for Medicaid coverage by the Department.

We ask that you provide at least one (1) week’s notice for all non-urgent inpatient hospitalizations or outpatient services for those diagnoses or procedures on the Select Diagnoses and Procedures List. You can request pre-service review up to four (4) weeks prior to the scheduled admission or procedure.

Late Notification
Timely review submission is important. Non-urgent pre-service review requests received less than one (1) week before treatment are considered late unless there are extenuating circumstances that preclude timely notification (e.g., acute injury). Late notification does not apply in those instances whereby the eligibility of the patient was established either during the admission or following discharge.

Qualis Health monitors and reports to the state those reviews that are not received timely. Accommodations are made for holidays and weekends.
Non-urgent pre-service review approvals are valid for four (4) months with the exception of all transplant approvals, which are valid for six (6) months from the date of initial authorization.

Qualis Health may request updated clinical information from a provider prior to a procedure. If an admission or procedure date changes, the provider must notify Qualis Health prior to the scheduled admission.

**Processes for the Select Diagnoses and Procedure Review Guidelines**

Operational hours for Alaska Medicaid reviews are Monday through Friday, 6:30 am to 5:00 pm Alaska Time, excluding scheduled holidays.

Physicians or designated personnel must submit pre-service review requests to Qualis Health via the QHPP.

<table>

</thead>
<tbody>
<tr>
<td><strong>QHPP</strong></td>
</tr>
<tr>
<td><strong>Phone</strong></td>
</tr>
<tr>
<td><strong>Fax</strong></td>
</tr>
<tr>
<td><strong>Mail</strong></td>
</tr>
</tbody>
</table>

Qualis Health’s voice mail system is available 24 hours a day. If you call after business hours, or if no one is available to answer your call during regular business hours, you may leave a confidential voice mail. We check voice mail frequently throughout the day. We retrieve messages left outside regular business hours first thing on the next business day and return those calls by 12:00 noon Alaska Time.

Refer to Exhibit 8 for the Pre-service Review Request Fax Form if you have been notified by Qualis Health personnel to submit a review via fax.

Providers are responsible for verifying eligibility prior to submitting review requests. Qualis Health confirms Alaska Medicaid eligibility prior to issuing review approvals. Refer questions regarding eligibility or coverage and benefits to the fiscal agent provider services unit.

2 If your Internet connection is temporarily unavailable, or if you do not have a QHPP user ID and password, call Qualis Health at (888) 240-0437 for information on alternate submission methods.
Information Needed for Reviews

Qualis Health representatives collect the following basic information for pre-service reviews:

- Recipient name
- Recipient birth date
- Complete recipient address
- Sex of recipient
- Recipient Medicaid ID number
- Admitting diagnosis and ICD-10-CM code
- Physician name
- Physician address
- Physician phone number
- Physician Medicaid provider number
- Facility name
- Facility address
- Facility phone number
- Facility Medicaid provider number
- Current principal diagnosis and ICD-10-CM code
- Procedure to be performed, including the ICD-10-CM code and/or CPT code
- Justification for the hospitalization and/or recipient symptoms
- Treatment proposed/provided
- Admit date and/or surgery date

Medical Necessity Screening

Once we have received all information needed for the review, a Qualis Health clinical reviewer assesses the medical information using InterQual criteria to determine whether the condition of the recipient meets the Severity of Illness (SI) and Intensity of Service (IS) requirements for the level of care and the type and number of services requested. If the screening criteria are met, the clinical reviewer issues a reference ID number and the review is certified. They also determine a length of stay and establish the date for a concurrent review if the recipient has not been discharged. Refer to Exhibit 1, Pre-service Review Flow Chart.

Qualis Health certification indicates only that the admission or procedure is medically necessary. This certification does not guarantee payment for services rendered. Payment is contingent upon eligibility and compliance with the rules and regulations that govern Medical Assistance in Alaska.

Second-level Peer Review

Episodes that do not meet criteria are referred for clinical peer review by a Qualis Health physician reviewer (medical director or P/PC). The physician reviewer evaluates the clinical information and either certifies the admission or issues a potential non-certification. In the event of a potential non-certification, the attending physician can discuss the review with the Qualis Health physician reviewer.

If a doctor-to-doctor conversation is requested, our physician reviewer and the recipient’s attending physician discuss the treatment plan, as well as appropriate alternatives. Following this discussion, Qualis Health either certifies or non-certifies the admission. See Section 3, Questions #2 and 3, for more information about doctor-to-doctor conversations, including the time constraints involved in holding those conversations.
Non-certifications

If the Qualis Health physician reviewer non-certifies the admission, we notify the appropriate provider (e.g., attending physician, facility) via the QHPP and telephone. We also send non-certification letters to the recipient, attending physician, facility and the Department within one (1) working day.

The non-certification letters contain justification for the non-certification and an explanation of the right to request an appeal of Qualis Health’s initial non-certification determination. Refer to Section 16 of this manual for a detailed description of the appeal procedure.

The provider may request both a doctor-to-doctor conversation and an appeal. Requesting a doctor-to-doctor conversation does not affect the time requirement for requesting an appeal.

The Department does not reimburse providers for services that have been non-certified by Qualis Health, with the exception of non-certifications that are reversed as the result of an appeal review by Qualis Health or a provider appeal or recipient fair hearing by the state.

Process and Procedures for Urgent Inpatient Admissions and Outpatient Procedures

When an urgent admission or procedure that is listed in the Select Diagnoses and Procedure Review Guidelines occurs either during normal business hours or on a weekend or legal holiday, providers or designated facility personnel must notify Qualis Health within one (1) working day. This can be done in the QHPP.

If you call after business hours, or if no one is available to answer your call during regular business hours, you may leave a confidential voice mail. We check voice mail frequently throughout the day. Leave the following information in your voice mail message:

- Your name
- Your telephone number, including area code, beeper number or extension
- Physician full name
- Recipient name (with the correct spelling)
- Recipient ID number (Medicaid)
- Recipient date of birth
- Facility name
- Date and time of admission or surgery
- Diagnosis or surgical procedure
- ICD-10 diagnosis codes and ICD-10 or CPT procedure codes
- Case ID number for continued stay review

Leaving a voice mail message with this information does not complete the review or automatically certify the review. Qualis Health must return your call and initiate the
review process. The same review guidelines and notification process for certifications and non-certifications as were previously described are followed.

Care and treatment of a recipient never should be delayed, particularly in urgent situations, in order to obtain Qualis Health certification.

Medical Transfer Reviews

Medical transfer reviews are required for inter-facility transfers. An inter-facility transfer is a transfer from one inpatient facility to another inpatient facility. The receiving ("transferred to") facility must initiate a new review for the medical transfer. Thus, each facility has a unique case identification or authorization number. The following special considerations apply:

- All transfers from one acute inpatient setting to another require a review. They are evaluated to ensure that the patient continues to meet criteria for either pre-service or concurrent review.
- An admission from a non-acute bed (i.e., swing bed or skilled nursing facility, or outpatient setting), or the emergency room is not considered a transfer for review purposes and is treated as a new admission.
- Also see Section 12, Physical Rehabilitation Reviews, for information about physical rehabilitation transfer reviews.

Time Frames

The most common time frames for completion of reviews are as follows:

<table>
<thead>
<tr>
<th>Review Type</th>
<th>Time Frame for Completion</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pre-service review—Urgent</td>
<td>Three (3) calendar days</td>
</tr>
<tr>
<td>Pre-service review—Non-urgent</td>
<td>Fifteen (15) calendar days</td>
</tr>
</tbody>
</table>
This page intentionally blank.
SECTION 10: CONCURRENT UTILIZATION REVIEWS

Purpose
A concurrent review takes place during the time in which a recipient is confined to a facility. The purpose is to determine if the facility confinement and associated physician services are medically necessary and appropriate. Qualis Health performs concurrent reviews for recipients when one of the following situations occurs:

- The recipient’s facility confinement reaches the review date assigned by Qualis Health at the time of the pre-service review ("scheduled discharge date") and when discharge on that day is unlikely.
- For those diagnoses and procedures not included on the select pre-certification list, there is a three-day benchmark that applies. These episodes are reviewed concurrently when the recipient’s confinement reaches day four, and the patient does not discharge from the facility. On day four, the episode is reviewed back to the date of admission and must meet criteria for all days. Concurrent reviews are done thereafter at intervals determined by Qualis Health.

Responsibility
The facility is responsible for securing concurrent review back to the day of admission when a recipient’s facility confinement reaches day four or the assigned review date. Providers must submit all utilization management reviews via the QHPP web-based review system. Qualis Health must receive all of the appropriate clinical information to satisfy criteria before we certify a concurrent stay review.

Requirements
If the recipient is admitted with a diagnosis or procedure that does not require pre-service review and the diagnosis or procedure subsequently changes to one of the select diagnoses or procedures listed in Appendix A, their provider must contact Qualis Health within one (1) working day to obtain certification if a review has not been initiated. The principal diagnosis or procedure code may be updated and added to the existing concurrent review.

Late Notification
Timely review submission is important. Non-urgent concurrent review requests received more than one (1) business day after the next review date are considered late. Late notification does not apply in those instances whereby the eligibility of the patient was established either during the admission or following discharge.

Qualis Health monitors and reports to the state those reviews that are not received timely. Accommodations are made for holidays and weekends.

For concurrent hospital days where the facility failed to obtain continued stay review authorization in a timely manner and the patient has not been discharged, Qualis Health processes the review as a concurrent review and considers the review late.
Once a review has been initiated with Qualis Health, the review process continues until one of the following occurs:

- The recipient is discharged
- The recipient is transferred to another facility
- Concurrent review is non-certified by Qualis Health
- The recipient loses Medicaid eligibility
- The recipient becomes eligible for Medicare Part A after admission

**Process and Procedures**

Operational hours for Alaska Medicaid reviews are Monday through Friday, 6:30 am to 5:00 pm Alaska Time, excluding scheduled holidays.

Designated personnel must submit concurrent review requests to Qualis Health via the QHPP.

<table>
<thead>

| **Mail**                  | Qualis Health  
                          | PO Box 33400  
                          | Seattle, WA 98133-0400 |

If you call after business hours, or if no one is available to answer your call during regular business hours, you may leave a confidential voice mail. We check voice mail frequently throughout the day. We retrieve messages left outside regular business hours first thing on the next business day and return those calls by 12:00 noon Alaska Time.

See Exhibit 11, Concurrent Review Request Form, if you are submitting a review via fax.

Providers are responsible for verifying eligibility prior to submitting review requests. Qualis Health confirms Alaska Medicaid eligibility prior to issuing review approvals. Refer questions regarding eligibility or coverage and benefits to the fiscal agent provider services unit.

Providers may contact the fiscal agent at (907) 644-6800 or (800) 770-5650 (toll-free in Alaska).

---

3 If your Internet connection is temporarily unavailable, or if you do not have a QHPP user ID and password, call Qualis Health at (888) 240-0437 for information on alternate submission methods.
Information Needed for Reviews

- Recipient name
- Recipient birth date
- Complete recipient address
- Sex of recipient
- Recipient Medicaid ID number
- Admitting diagnosis and ICD-10-CM code
- Physician name
- Physician address
- Physician phone number
- Physician Medicaid provider number
- Facility name
- Facility address
- Facility phone number
- Facility Medicaid provider number
- Current principal diagnosis and ICD-10-CM code
- Procedure to be performed, including the ICD-10-CM code and/or CPT code
- Justification for the hospitalization and/or recipient symptoms
- Treatment proposed/provided
- Admit date and/or surgery date
- Baby’s weight in grams (required for review of newborns)

Medical Necessity Screening

Once we have received all information needed for the review, a Qualis Health clinical reviewer examines the medical information to assess the recipient’s progress for the days being evaluated. InterQual criteria are applied to determine whether the condition of the recipient meets the Severity of Illness (SI) and Intensity of Service (IS) requirements. If criteria are met, the clinical reviewer issues a reference ID number (if not previously obtained in a pre-service review) and the concurrent review is certified. They also determine an approved length of stay and establish the next assigned review date if the recipient has not been discharged. Refer to Exhibit 2, Concurrent Review Flow Chart.

Qualis Health certification indicates only that the admission, procedure or continued hospitalization is medically necessary. This certification does not guarantee payment for services rendered. Payment is contingent upon eligibility and compliance with the rules and regulations that govern Medical Assistance in Alaska.

Second-level Peer Review

Cases that do not meet criteria are referred for clinical peer review by a Qualis Health physician reviewer (medical director or P/PC). The physician reviewer evaluates the clinical information and either certifies the admission or issues a potential non-certification. In the event of a potential non-certification, the attending physician can ask to discuss the review with the Qualis Health physician reviewer. If a doctor-to-doctor conversation is requested, our physician reviewer and the recipient’s attending physician discuss the treatment plan, as well as appropriate alternatives. Following this discussion, Qualis Health either certifies or non-certifies the admission. See Section 3, Questions #2 and 3, for more information about doctor-to-doctor conversations, including the time constraints involved in holding those conversations.
Non-certifications

If the Qualis Health physician reviewer non-certifies all or part of the stay, a Qualis Health representative notifies the appropriate provider (e.g., attending physician, facility) of the adverse determination via the QHPP and telephone. We also send non-certification letters to the recipient, attending physician, facility and the Department within one (1) working day.

The non-certification letters contain justification for the non-certification and an explanation of the right to request an appeal of Qualis Health’s non-certification determination. Refer to Section 16 of this manual for a detailed description of the appeal procedure.

The provider may request both a doctor-to-doctor conversation and an appeal. Requesting a doctor-to-doctor conversation does not affect the time requirement for requesting an appeal.

The Department does not reimburse providers for services that are non-certified by Qualis Health, with the exception of non-certifications that are reversed as the result of an appeal review by Qualis Health or a provider appeal or recipient fair hearing by the state.

Procedures for Concurrent Reviews Due on Weekends and Holidays

In those instances where the concurrent review date falls on a weekend or holiday, the following procedure is followed:

If the concurrent review is due on a Saturday, Sunday or holiday, the concurrent review takes place on the following Qualis Health business day. Non-certification can be retrospective to the first day the recipient was not meeting acute level of care.

Alternatives to Discharge

Administrative Wait Days, Swing Bed Review

When a patient’s hospital stay is non-certified, there are alternatives available other than discharging the patient from the hospital. Alaska Medicaid has provided two different programs for hospitals, the Swing Bed and the Administrative Wait Day(s) program, depending on whether the facility has been designated as a rural or urban hospital.

Rural hospitals may apply to the Division of Health Care Services to be an Alaska Medicaid Swing Bed provider. Once a hospital is been enrolled by Alaska Medicaid as a Swing Bed provider, they can request reimbursement for the days the patient remains in the hospital beyond Qualis Health’s non-certification.

Urban hospitals may apply to the Division of Health Care Services to be an Alaska Medicaid provider that may request Administrative Wait Day(s). When a hospital is enrolled in Alaska Medicaid they may request Administrative Wait Day(s) reimbursement for a hospital stay where the patient remains in the hospital beyond Qualis Health’s non-certification.
Requests for Administrative Wait Day(s) (AWD) or Swing Bed authorization must be submitted on a Long Term Care (LTC) Authorization form to the Division of Senior and Disabilities Services (DSDS). Qualis Health does not process review requests for AWD or Swing Bed authorizations.

**Time Frames**

The most common time frames for completion of reviews are as follows:

<table>
<thead>
<tr>
<th>Review Type</th>
<th>Time Frame for Completion</th>
</tr>
</thead>
<tbody>
<tr>
<td>Concurrent Review—Urgent</td>
<td>Three (3) calendar days</td>
</tr>
<tr>
<td>Concurrent Review—Non-Urgent</td>
<td>Three (3) calendar days</td>
</tr>
</tbody>
</table>

When additional information is required to complete the review, the timeline is adjusted accordingly. Qualis Health may choose to exercise a single extension of up to 15 calendar days on non-urgent reviews when there are reasons beyond the control of the organization that requires an extension. When this occurs, Qualis Health must inform the provider (by the date on which notice of the initial decision would normally be due) of the circumstances that require the extension and the date by which it expects to reach a decision. This single extension is allowed only for non-urgent reviews; it is not allowed for urgent care reviews.
SECTION 11: RETROSPECTIVE UTILIZATION REVIEWS

Definition and Purpose
A retrospective review is typically a review for medical necessity submitted after services have been rendered and the patient has been discharged. A retrospective review may also be necessary if Medicaid eligibility is established while the patient is inpatient. Although pre-service or concurrent review is the preferred—and most advantageous—type of review, retrospective reviews are necessary to determine medical necessity of services already provided. A review of a facility confinement that is conducted retrospectively can result in non-certified hospital days or procedures/treatments.

Responsibility
The facility utilization reviewer is responsible for reviewing each chart for the appropriate information regarding Medicaid eligibility at the time of hospitalization. Providers must submit all utilization management reviews via the QHPP. Qualis Health must receive all of the appropriate clinical information to satisfy criteria before we certify a retrospective review.

Requirements
Retrospective review is required only for those outpatient or inpatient hospitalizations where the primary diagnosis or procedure would have required pre-service review or the hospitalization exceeded the three-day benchmark.

Retrospective Review Submission When Eligibility is Established during the Inpatient Admission
On occasion, recipients may complete an application for Medicaid during an inpatient stay and subsequently become Medicaid eligible prior to discharge. Providers must notify Qualis Health as soon they know the recipient is Medicaid eligible. If this hospitalization has exceeded 30 days, submit a retrospective review from date of admission to date of notification to Qualis Health, with targeted clinical documentation supporting medical necessity. Additionally, a continued stay review may be necessary from notification date to discharge, and is reviewed using the concurrent review process outlined in Section 10. This results in a split bill authorization with two separate authorizations for the episode of care.

All retrospective reviews may be submitted via the QHPP with the exception noted below. Reviews that exceed 365 days in length may not be submitted via the QHPP. Contact Qualis Health for submission instructions.

Late Notification
Timely review submission is important. Retrospective review requests are considered late if the patient’s Medicaid eligibility existed at the time the authorization was due (eligibility established prior to admission). Late notification does not apply in those instances whereby the eligibility of the patient was established either during the
admission or following discharge. Qualis Health monitors and reports to the state those reviews that are not received timely. Accommodations are made for holidays and weekends.

**Process and Procedures**

Operational hours for Alaska Medicaid reviews are Monday through Friday, 6:30 am to 5:00 pm Alaska Time, excluding scheduled holidays.

Designated personnel must submit retrospective review requests to Qualis Health via the QHPP.

| Mail                      | Qualis Health  
                          PO Box 33400  
                          Seattle, WA 98133-0400 |

If you call after business hours, or if no one is available to answer your call during regular business hours, you may leave a confidential voice mail. We check voice mail frequently throughout the day. We retrieve messages left outside regular business hours first thing on the next business day and return those calls by 12:00 noon Alaska Time.

Providers are responsible for verifying eligibility prior to submitting review requests. Qualis Health confirms Alaska Medicaid eligibility prior to issuing review approvals. Refer questions about eligibility or coverage and benefits to the fiscal agent provider services unit at (907) 644-6800 or (800) 770-5650 (toll-free in Alaska).

⁴ If your Internet connection is temporarily unavailable, or if you do not have a QHPP user ID and password, call Qualis Health at (888) 240-0437 for information on alternate submission methods.
Information Needed for Reviews

- Recipient name
- Recipient birth date
- Complete recipient address
- Date of Medicaid eligibility
- Sex of recipient
- Recipient Medicaid ID number
- Admitting diagnosis and ICD-10-CM code
- Physician name
- Physician address
- Physician phone number
- Physician Medicaid provider number
- Facility name
- Facility address
- Facility phone number
- Facility Medicaid provider number
- Current principal diagnosis and ICD-10-CM code
- Procedure to be performed, including the ICD-10-CM code and/or CPT code
- Justification for the hospitalization and/or recipient symptoms
- Treatment proposed/provided
- Admit date and/or surgery date
- Baby’s weight in grams (required for review of newborns)

Medical Necessity Screening

Once we have received all information needed for a review, a Qualis Health clinical reviewer examines the medical information to assess the recipient’s progress for the days being evaluated. The clinical reviewer applies criteria to determine whether the condition of the recipient met the Severity of Illness (SI) and Intensity of Service (IS) requirements, and determines an approved length of stay. Refer to Exhibit 15, Retrospective Review Request Form.

Qualis Health certification indicates only that the admission, procedure or continued hospitalization is medically necessary. This certification does not guarantee payment for services rendered. Payment is contingent upon eligibility and compliance with the rules and regulations that govern Alaska Medicaid/Denali KidCare programs.

Second-level Peer Review

Episodes that do not meet criteria are referred for clinical peer review by a Qualis Health physician reviewer (medical director or P/PC). The physician reviewer evaluates the clinical information and either certifies the admission or issues a potential non-certification. In the event of a potential non-certification, the attending physician can discuss the review with the Qualis Health physician reviewer. If a doctor-to-doctor conversation is requested, our physician reviewer and the recipient’s attending physician discuss the treatment plan, as well as appropriate alternatives. Following the discussion, Qualis Health either certifies or non-certifies the admission. See Section 3, Questions #2 and 3, for more information about doctor-to-doctor conversations, including the time constraints involved in holding those conversations.
Non-certifications

If the Qualis Health physician reviewer non-certifies the admission, we notify the appropriate provider (e.g., attending physician, facility) via the QHPP and telephone. We also send non-certification letters to the recipient, attending physician, facility and the Department within one (1) working day.

The non-certification letters contain justification for the non-certification and an explanation of the right to request an appeal of Qualis Health’s initial non-certification determination. Refer to Section 16 of this manual for a detailed description of the appeal procedure.

The provider may request both a doctor-to-doctor conversation and an appeal. Requesting a doctor-to-doctor conversation does not affect the time requirement for requesting an appeal.

The Department does not reimburse providers for services that have been non-certified by Qualis Health, with the exception of non-certifications that are reversed as the result of an appeal review by Qualis Health or a provider appeal or recipient fair hearing by the state.

Time Frames

The most common time frame for completion of reviews is as follows:

<table>
<thead>
<tr>
<th>Review Type</th>
<th>Time Frame for Completion</th>
</tr>
</thead>
<tbody>
<tr>
<td>Retrospective review</td>
<td>Thirty (30) calendar days</td>
</tr>
</tbody>
</table>

When additional information is required to complete the review, the timeline is adjusted accordingly.
SECTION 12: PHYSICAL REHABILITATION UTILIZATION REVIEWS

Purpose

Care management best practices indicate that the most effective form of review takes place before the recipient enters the rehabilitation facility. The chief advantage is that medically unnecessary rehabilitation stays can be avoided.

Responsibility

The facility utilization review department is responsible for the identification of Medicaid cases that require physical rehabilitation review. The attending physician is ultimately responsible for obtaining certification of inpatient physical rehabilitation admissions. Providers must submit all utilization management reviews via the QHPP web-based review system. Qualis Health must receive all of the appropriate clinical information to satisfy criteria before we certify a pre-service review.

Requirements

All physical rehabilitation services must be provided in state-certified or Medicare-approved rehabilitation units. We recommend that you submit requests at least one (1) week prior to a planned rehabilitation admission, or preferably as soon as admission to a rehabilitation unit is anticipated.

Late Notification

Timely review submission is important. Non-urgent pre-service review requests received less than one (1) week before treatment are considered late unless there are extenuating circumstances that preclude timely notification, such as anticipated acceptance to physical rehabilitation earlier than one (1) week. Late notification does not apply in those instances whereby the eligibility of the patient was established either during the admission or following discharge. Qualis Health monitors and reports to the state those reviews that are not received timely. Accommodations are made for holidays and weekends.

Process and Procedures

Operational hours for Alaska Medicaid reviews are Monday through Friday, 6:30 am to 5:00 pm Alaska Time, excluding scheduled holidays.

Designated personnel must submit physical rehabilitation review requests to Qualis Health via the QHPP.

</tbody>
</table>
| Mail | Qualis Health  
PO Box 33400  
Seattle, WA 98133-0400 |

If you call after business hours, or if no one is available to answer your call during regular business hours, you may leave a confidential voice mail. We check voice mail frequently throughout the day. We retrieve messages left outside regular business hours first thing on the next business day and return those calls by 12:00 noon Alaska Time.

Providers are responsible for verifying eligibility prior to submitting review requests. Qualis Health verifies Alaska Medicaid eligibility for those reviews requiring retrospective review. Refer questions about eligibility or coverage and benefits to the fiscal agent provider services unit.

Pre-service review for rehabilitation has two components: assessment and evaluation.

1. Assessment of a recipient’s rehabilitation potential

   Before a recipient is admitted to the rehabilitation facility or unit specifically for rehabilitative care, Qualis Health must assess the following elements:
   - Medical condition and history
   - Functional limitations
   - Prognosis
   - Possible need for corrective surgery
   - Attitude toward rehabilitation
   - Ability to learn, meet rehabilitation goals, and participate in three (3) hours of therapy five (5) days per week
   - The existence of any social problems affecting rehabilitation
   - Expected outcome(s) from rehabilitation treatment

   Reasonable rehabilitation goals should be identified for the Qualis Health evaluation. The plan of care should include both short- and long-term goals.

---

5 If your Internet connection is temporarily unavailable, or if you do not have a QHPP user ID and password, call Qualis Health at (888) 240-0437 for information on alternate submission methods.
2. Evaluation of the rehabilitation program

Evaluation of the weekly multi-disciplinary rehabilitation team documentation occurs during the next scheduled concurrent review. This includes:

- Physical, occupational and/or speech therapy that total three (3) hours per day, five (5) days per week. (Medical reasons or complications precluding this criterion must be documented.)
- Any of the following services as indicated:
  - Medical/social services
  - Psychology
  - Recreational therapy
  - Vocational counseling
- Skilled rehabilitative nursing care or supervision required and available on a 24-hour basis.
- Documentation of measurable weekly improvement in functional in at least one (1) therapy, and revision of goals if necessary.

The Physical Rehabilitation Review Worksheet for Pre-service Review (Exhibit 12) can assist you with collecting the necessary information to submit a review by fax.

Information Needed for Reviews

- Recipient name
- Recipient birth date
- Complete recipient address
- Sex of recipient
- Recipient Medicaid ID number
- Admitting diagnosis and ICD-10-CM code
- Physician name
- Physician address
- Physician phone number
- Physician Medicaid provider number
- Facility name
- Facility address
- Facility phone number
- Facility Medicaid provider number
- Current principal diagnosis and ICD-10-CM code
- Relevant surgeries including the ICD-10-CM and/or CPT code(s)
- Justification for the hospitalization and/or recipient symptoms
- Treatment proposed/provided
- Admission date

Medical Necessity Screening

Once we receive all information needed for a review, a Qualis Health clinical reviewer assesses the medical information using InterQual criteria to determine whether the condition of the recipient meets the Severity of illness (SI) and Intensity of Service (IS) requirements for the level of care and the type and number of services requested. If the screening criteria are met, the clinical reviewer issues a reference ID number and the review is certified. They also determine a length of stay and establish the date for a concurrent review if the recipient has not been discharged.
Qualis Health certification indicates only that the admission or procedure is medically necessary. This certification does not guarantee payment for services rendered. Payment is contingent upon eligibility and compliance with the rules and regulations that govern Medical Assistance in Alaska.

Second-level Peer Review

Episodes that do not meet criteria are referred for clinical peer review by a Qualis Health physician reviewer (medical director or P/PC). The physician reviewer evaluates the clinical information and either certifies the admission or issue a potential non-certification. In the event of a potential non-certification, the attending physician can discuss the review with the Qualis Health physician reviewer. If a doctor-to-doctor conversation is requested, our physician reviewer and the recipient’s attending physician discuss the treatment plan, as well as appropriate alternatives. Following the discussion, Qualis Health either certifies or non-certifies the admission. See Section 3, Questions #2 and 3, for more information about doctor-to-doctor conversations, including the time constraints involved in holding those conversations.

Non-certifications

If the Qualis Health physician reviewer non-certifies the admission, we notify the appropriate provider (e.g., attending physician, facility) via the QHPP and telephone. We also send non-certification letters to the recipient, attending physician, facility and the Department within one (1) working day.

Non-certification letters contain justification for the non-certification and an explanation of the right to request an appeal of Qualis Health’s initial non-certification determination. Refer to Section 16 of this manual for a detailed description of the appeal procedure.

The provider may request both a peer-to-peer conversation and an appeal. Requesting a doctor-to-doctor conversation does not affect the time requirement for requesting an appeal.

The Department does not reimburse providers for services that have been non-certified by Qualis Health, with the exception of non-certifications that are reversed as the result of an appeal review by Qualis Health or a provider appeal or recipient fair hearing by the state.

Physical Rehabilitation Transfer Reviews

Definitions

There are two types of transfers: intra-facility and inter-facility. Both require a new physical rehabilitation pre-service review.

- **Intra-facility Transfer** is a transfer from a medical/surgical unit in a facility to a physical rehabilitation unit within the same facility. A new review and authorization number is needed for the rehab admission. Thus, both the acute care and rehab admission have unique authorization numbers. A review is not required for transfers to other types of medical/surgical units (e.g., ICU, CCU) within the same facility.

- **Inter-facility Transfer** is a transfer from one inpatient facility to another inpatient facility. The receiving facility initiates a new review for each inter-facility transfer. Thus, each facility has a unique certification number to use on the claim form.
Purpose

The purpose of a transfer review is to ensure that Alaska Medicaid recipients receive the most appropriate level of care within an acute care facility.

Special Requirements

Scheduled or non-urgent/emergent transfers to a physical rehabilitation unit should be pre-certified before the recipient is transferred to the unit.

Urgent or emergent transfers should be pre-certified by submitting review requests in the QHPP within 24 hours or one (1) business day of the transfer.
SECTION 13: OUTPATIENT IMAGING UTILIZATION REVIEWS

Purpose
Care management best practices indicate that the most effective form of review takes place before the recipient receives the services. The chief advantage is that medically unnecessary procedures can be avoided.

DHCS has determined that certain select outpatient imaging procedures require pre-service review. This list of medical conditions and procedures is contained in Appendix A. Only outpatient imaging procedures are subject to this requirement; emergency room and inpatient hospital imaging procedures are excluded.

Responsibility
The recipient’s ordering physician is ultimately responsible for obtaining the pre-service review from Qualis Health. The ordering physician is most knowledgeable about the recipient’s medical history and condition related to the outpatient imaging review request. Providers must submit outpatient imaging utilization management reviews via the QHPP web-based review system, and must complete the imaging review questionnaire. Qualis Health must receive all of the appropriate clinical information to satisfy criteria before we certify a pre-service review.

Requirements
Pre-service review is required for all outpatient imaging procedures included in Appendix A, Select Diagnoses and Procedure Review Guidelines. A review is required only if the outpatient imaging procedure is on the select list and the provider/facility is approved for Medicaid coverage by the Department. Emergency room and hospital procedures are excluded from the outpatient imaging pre-service review process.

Prior to scheduling any of the non-urgent imaging procedures listed in Appendix A, Select Diagnoses and Procedure Review Guidelines, initiate a pre-authorization request. Once Qualis Health receives the review request, we contact the requestor through the QHPP with the results of the pre-authorization.

Late Notification
Timely review submission is important. Non-urgent pre-service review requests must be received prior to the outpatient imaging procedure services being provided or the request for review is considered late. Late notification does not apply in those instances whereby the eligibility of the patient was established retroactively. Extenuating circumstances that preclude timely notification may also be taken into consideration.

Qualis Health monitors and reports to the state those reviews that are not received timely. Accommodations are made for holidays and weekends.

Outpatient imaging pre-service review approvals are valid for four (4) months from the date of initial authorization.

Qualis Health may request updated clinical information from a provider prior to a procedure. If an admission or procedure date changes, the provider must notify Qualis Health prior to the scheduled admission.
Process and Procedures for Select Outpatient Imaging

Operational hours for Alaska Medicaid reviews are Monday through Friday, 6:30 am to 5:00 pm Alaska Time, excluding scheduled holidays.

Physicians or designated personnel must submit pre-service review requests to Qualis Health via the QHPP, and must complete the imaging questionnaire.

<table>

</tr>
<tr>
<td></td>
</tr>
<tr>
<td></td>
</tr>
</tbody>
</table>

If you call after business hours, or if no one is available to answer your call during regular business hours, you may leave a confidential voice mail. We check voice mail frequently throughout the day. We retrieve messages left outside regular business hours first thing on the next business day and return those calls by 12:00 noon Alaska Time.

Refer to Exhibit 8 for the Pre-service Review Request Fax Form if you have been notified by Qualis Health personnel to submit a review via fax.

Providers are responsible for verifying eligibility prior to submitting review requests. Qualis Health confirms Alaska Medicaid eligibility prior to issuing review approvals. Refer questions regarding eligibility or coverage and benefits to the fiscal agent provider services unit.

⁶ If your Internet connection is temporarily unavailable, or if you do not have a QHPP user ID and password, call Qualis Health at (888) 240-0437 for information on alternate submission methods.
Information Needed for Reviews

Qualis Health representatives collect the following basic information for pre-service reviews:

- Recipient name
- Recipient birth date
- Complete recipient address
- Sex of recipient
- Recipient Medicaid ID number
- Admitting diagnosis and ICD-10-CM code
- Physician name
- Physician address
- Physician phone number
- Physician Medicaid provider number
- Facility name
- Facility address
- Facility phone number
- Facility Medicaid provider number
- Current principal diagnosis and ICD-10-CM code
- Procedure to be performed, including the ICD-10-CM code and/or CPT code
- Justification for the hospitalization and/or recipient symptoms
- Procedure proposed/provided
- Procedure date

Medical Necessity Screening

Once we receive all information needed for a review, a Qualis Health clinical reviewer assesses the medical information using InterQual criteria to determine whether the condition of the recipient meets the Severity of Illness (SI) and Intensity of Service (IS) requirements for the type and number of services requested. If the screening criteria are met, the clinical reviewer issues a reference ID number and the review is certified. Refer to Exhibit 1, Pre-service Review Flow Chart.

Qualis Health certification indicates only that the procedure is medically necessary. This certification does not guarantee payment for services rendered. Payment is contingent upon eligibility and compliance with the rules and regulations that govern Medical Assistance in Alaska.

Second-level Peer Review

Episodes that do not meet criteria are referred for clinical peer review by a Qualis Health physician reviewer (medical director or physician consultant). The physician reviewer evaluates the clinical information and either certifies the procedure or issues a potential non-certification. In the event of a potential non-certification, the attending physician can discuss the review with the Qualis Health physician reviewer. If a doctor-to-doctor conversation is requested, our physician reviewer and the recipient’s attending physician discuss the treatment plan, as well as appropriate alternatives. Following the discussion, Qualis Health either certifies or non-certifies the procedure request. See Section 3, Questions #2 and 3, for more information about doctor-to-doctor conversations, including the time requirements involved in holding those conversations.
Non-certifications

If the Qualis Health physician reviewer non-certiﬁes the admission, we notify the appropriate provider (e.g., ordering physician) via the QHPP and telephone. We also send non-certiﬁcation letters to the recipient, ordering physician, facility and the Department within one (1) working day.

The non-certiﬁcation letters contain justiﬁcation for the non-certiﬁcation and an explanation of the right to request an appeal of Qualis Health’s initial non-certiﬁcation determination. Refer to Section 16 of this manual for a detailed description of the appeal procedure.

The provider may request both a peer-to-peer conversation and an appeal. Requesting a doctor-to-doctor conversation does not affect the time requirement for requesting an appeal.

The Department does not reimburse providers for services that have been non-certiﬁed by Qualis Health, with the exception of non-certiﬁcations that are reversed as the result of an appeal review by Qualis Health or a provider appeal or recipient fair hearing by the state.

Process and Procedures for Outpatient Imaging Services

When a procedure that is on the pre-certification list occurs either during normal business hours or on a weekend or legal holiday, providers must notify Qualis Health within one (1) working day. This can be accomplished by using the QHPP and completing the imaging questionnaire.

If you call after business hours, or if no one is available to answer your call during regular business hours, you may leave a conﬁdential voice mail. We check voice mail frequently throughout the day. Leave the following information in your voice mail message:

- Your name
- Your telephone number, including area code, beeper number or extension
- Physician full name
- Recipient name (with the correct spelling)
- Recipient ID number (Medicaid)
- Recipient date of birth
- Facility name
- Date and time of procedure
- Diagnosis and procedure
- ICD-10 diagnosis codes and ICD-10 or CPT procedure codes

Leaving a voice mail message with this information does not complete the review or automatically certiﬁcate the review. Qualis Health must return your call and initiate the review process. The same review guidelines and notiﬁcation process for certiﬁcations and non-certifications as were previously described are followed.
Care and treatment of a recipient never should be delayed, particularly in urgent situations, in order to obtain Qualis Health certification.

**Time Frames**

The most common time frames for completion of reviews are as follows:

<table>
<thead>
<tr>
<th>Review Type</th>
<th>Time Frame for Completion</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pre-service Review—Urgent</td>
<td>Three (3) calendar days</td>
</tr>
<tr>
<td>Pre-service Review—Non-urgent</td>
<td>Fifteen (15) calendar days</td>
</tr>
</tbody>
</table>
This page intentionally blank.
QUALIS HEALTH is committed to promoting optimum quality of care for all recipients. Therefore, we assess quality of care in various settings while performing reviews. The facility and attending physician are responsible for delivering the utmost quality of care for their patients. The Qualis Health clinical reviewer is responsible for identifying potential quality of care concerns regarding Alaska Medicaid recipients. Potential quality of care concerns may be identified during all types of reviews, including retrospective chart reviews.

If the Qualis Health clinical reviewer identifies a potential quality of care concern when performing a review, the situation is handled in one of two ways:

- If the clinical reviewer determines that the recipient’s quality of care is currently being compromised, they consult a Qualis Health physician (medical director or P/PC). If the Qualis Health physician concurs that there is a potential quality of care concern, Qualis Health refers the case to DHCS for further action.

- If the clinical reviewer determines that there is a potential quality of care concern, but the recipient’s care is not currently being compromised, they consult a Qualis Health physician (medical director or P/PC). If the Qualis Health physician concurs that there is a potential quality of care concern, Qualis Health refers the case to DHCS for further action and obtains the records if requested to do so.
SECTION 15: SPECIAL CASE UTILIZATION REVIEWS

Purpose
Special case reviews for Medicaid recipients may be reviewed at any time at the
direction of the Department. Special case reviews may include a variety of treatment
and or procedure reviews particularly those that are potentially non-covered or
experimental/investigational in nature. Care management best practices indicate that
the most effective form of review takes place before the recipient enters the facility. The
chief advantage is that medically unnecessary admissions can be avoided.
DHCS has determined that certain select diagnosis and procedures require pre-service
special case review. This list of medical conditions and procedures is in Appendix A.

Responsibility
Providers are responsible for submitting clinical records to support the medical
necessity for the review at the time of the request.
At the direction of the Department, Qualis Health performs special case reviews and
makes recommendations. We forward these recommendations to the Department for
final review and determination. When Qualis Health receives the Department’s
determination, we provide written notification of the determination to the attending
physician, facility and recipient if it is approved, denied or a partial denial. If the clinical
information received does not support the review request, we may request additional
clinical information. Mail this information to:

    Qualis Health
    Attn: Provider Services Department/Special Case Review
    PO Box 33400
    Seattle, WA 98133-0400

Requirements
The facility must submit requested information to Qualis Health within 30 days of receipt
of notification of the case requested for review.

Process and Procedures
Qualis Health reports the result of the review to the Department only. Qualis Health
notifies the attending physician, facility and recipient of the state determination in
writing.
SECTION 16: UTILIZATION REVIEW APPEALS

Qualis Health offers an appeal process to providers and recipients in all episodes involving an adverse determination. When a review determination is to deny, reduce or terminate covered services, Qualis Health generates written notification of the adverse decision within one (1) business day of the date the decision is made. The non-certification notification includes rights for an appeal review. Qualis Health's appeal process features a second opinion by a physician who specializes in the services under review. URAC requires that appeal reviews be conducted by individuals who:

- Are clinical peers
- Hold an active, unrestricted license to practice medicine or a health profession
- Are board-certified by the American Board of Medical Specialties or the Advisory Board of Osteopathic Specialists
- Are in the same profession and in a similar specialty as typically manages the medical condition, procedure, or treatment under appeal
- Are neither the individual who made the original non-certification nor the subordinate of such an individual
- Have no conflicts of interest with the patient, attending physician or facility being reviewed

There are two types of appeals potentially available: expedited and standard. Instructions on how to initiate each type of appeal are included in the non-certification letter Qualis Health sends when the adverse determination is made.

Expeditied Appeals

Definition

An expedited appeal is an appeal of a non-certification in a case involving urgent care.

Process and Procedures

Requests for expedited appeal may be submitted via the QHPP, telephone, fax or mail within two (2) business days of the receipt of the non-certification notification if the recipient has not yet been discharged. If an expedited appeal request is filed after two (2) business days, Qualis Health responds to that request through the standard appeal process.
Requests for expedited appeals should be directed as follows:

<table>
<thead>
<tr>
<th>QHPP⁷</th>
<th><a href="https://qualishealthpp.zeomega.com">https://qualishealthpp.zeomega.com</a></th>
</tr>
</thead>
<tbody>
<tr>
<td>Phone</td>
<td>(888) 240-0437</td>
</tr>
<tr>
<td>Fax</td>
<td>(888) 664-0168</td>
</tr>
<tr>
<td>Mail</td>
<td>Qualis Health Attn: Provider Services Department/Appeal Review PO Box 33400 Seattle, WA 98133-0400</td>
</tr>
</tbody>
</table>

Upon receipt of a request for an expedited appeal:

1. Qualis Health notifies all appropriate parties of the request.
2. If needed, Qualis Health requests that any additional medical information (e.g., medical records, physician office notes) necessary for the appeal review be submitted to us within two (2) hours.
3. The case is referred to a Qualis Health physician/practitioner consultant (P/PC) licensed and/or accredited in the appropriate specialty or subspecialty who is not the same individual who initially reviewed and non-certified the review.
4. The P/PC reviews the medical information.
5. If the P/PC reverses the non-certification decision, Qualis Health issues a reference ID number and length of stay (if applicable) and notifies all appropriate parties telephonically and in writing.
6. If the P/PC modifies the decision or upholds the non-certification, Qualis Health notifies the requesting physician or facility telephonically and in writing.
7. Notification with the review outcome, including clinical rationale, is sent to the recipient, attending physician and facility.

If the recipient, attending physician or facility disagrees with the expedited outcome, the standard appeal process may be followed.

Standard Appeals

Definition

A standard appeal is an appeal of a non-certification that is not an expedited appeal. Typically, standard appeals do not relate to cases involving urgent care. However, standard appeals may include secondary appeals of expedited appeals.

⁷ If your Internet connection is temporarily unavailable, or if you do not have a QHPP user ID and password, call Qualis Health at (888) 240-0437 for information on alternate submission methods.
Process and Procedures

Recipients or providers may request a standard appeal via the QHPP, fax, telephone or mail within 180 days of the date shown on the non-certification notice. Direct requests for standard appeals as follows:

<table>
<thead>
<tr>
<th>Method</th>
<th>Information</th>
</tr>
</thead>
<tbody>
<tr>
<td>QHPP</td>
<td><a href="https://qualishealthpp.zeomega.com">https://qualishealthpp.zeomega.com</a></td>
</tr>
<tr>
<td>Phone</td>
<td>(888) 240-0437</td>
</tr>
<tr>
<td>Fax</td>
<td>(888) 664-0168</td>
</tr>
<tr>
<td>Mail</td>
<td>Qualis Health Attn: Provider Services Department/Appeal Review PO Box 33400 Seattle, WA 98133-0400</td>
</tr>
</tbody>
</table>

Any requests for appeal of non-certifications are reviewed by a Qualis Health physician/practitioner consultant who is licensed and/or accredited in the appropriate specialty or subspecialty as the attending physician, but is not the same individual(s) who initially non-certified the review or the expedited appeal, if applicable.

Qualis Health must receive all appropriate clinical information before reviewing appeals. Upon receipt of complete records, Qualis Health issues the appeal decision within 30 days of receipt of the request for a standard appeal. All appropriate parties are notified in writing of Qualis Health’s determination to uphold, reverse or modify the initial non-certification decision.

Documents Required for Appeal Processing

The following documents are required for review. Additional information may be submitted or requested to justify medical necessity.

- Admitting history and physical
- Interim or discharge summary, as applicable
- Operative report, as applicable
- Results/reports of diagnostic testing (e.g., MRI, CT, lab)
- Physician orders
- Physician progress notes

Submitting the required documentation with the appeal request reduces the amount of time required to process the appeal. Conversely, any required documents not submitted with the appeal must be requested from the provider, delaying the decision.

Qualis Health’s appeal decision takes precedence over the initial non-certification decision or the expedited appeal decision, if applicable. For example, if an appeal review certifies more facility days than the original review, then more facility days are

---

8 If your Internet connection is temporarily unavailable, or if you do not have a QHPP user ID and password, call Qualis Health at (888) 240-0437 for information on alternate submission methods.
recommended for certification. Conversely, if an appeal review certifies fewer days than the original review, then fewer facility days are recommended for certification. Refer to Exhibit 4, Standard Appeal Process Flow Chart.

**Recipient Fair Hearing and Division of Health Care Services Appeal Procedures**

**Fair Hearing Rights for Recipients**

DHCS Fair Hearing procedure is the process by which recipients can contest Qualis Health non-certification decisions. Recipients may request fair hearings by phone or letter to the Fair Hearing representative at DHCS, within 30 days of the date on Qualis Health’s standard appeal determination letter non-certifying the service. The request must state the rationale for requesting a fair hearing. The address and phone number to request a fair hearing are:

- **Fair Hearing Representative**
  - Conduent State Healthcare
  - PO Box 240808
  - Anchorage, AK 99524
  - (800) 780-9972 or (907) 644-6800

If the recipient has been getting a service paid by DHCS that is stopped, suspended or reduced by an action we take, the recipient may ask that the service be continued. If the recipient wants to have the service continued during the time awaiting a hearing decision, they should ask for a continuation of the service within 10 days of the date of the action to stop, suspend or reduce the service. If the recipient asks for the service to be continued and the hearing decision determines that DHCS was correct to stop, suspend or reduce the service, the state may require the recipient to repay the cost of the services provided. (Regulatory References: 42 CFR 431.230(b) and 7 AAC 49.200)

**Second-level Appeal Rights for Providers**

An additional appeal process is available to providers through DHCS. Providers may request second-level appeals when they are not satisfied with the results of first-level appeal decisions by Qualis Health. Second-level appeals must be requested in writing and postmarked within 60 days of the date of the first-level appeal decision by Qualis Health. Second-level appeal requests cannot be made by telephone. Submit second-level appeals to:

- **Claims Appeal Representative**
  - Alaska Division of Health Care Services
  - 4501 Business Park Blvd., Bldg. L
  - Anchorage, AK 99503-7167

Include a copy of the Qualis Health first-level decision and supporting documentation considered relevant with the written appeal request.

Providers are notified in writing of the final decision by DHCS. If the recipient has been getting a service paid by DHCS that is stopped, suspended or reduced by an action we take, the recipient may ask that the service be continued. If the recipient wants to have the service continued during the time awaiting an appeal decision, they should ask for a continuation of the service within 10 days of the date of the action to stop, suspend, to
reduce the service. If the recipient asks for the service to be continued and the appeal decision determines that DHCS was correct to stop, suspend or reduce the service, the state may require the recipient to repay the cost of the services provided. (Regulatory References: 42 CFR 431.230(b), 42 CFR 431.231(a), 7 AAC 49.190 and 7 AAC 49.200)
This page intentionally blank
SECTION 17: CASE MANAGEMENT

Definition and Compliance with URAC
URAC defines case management as "a collaborative process that assesses, plans, implements, coordinates, monitors, and evaluates options and services to meet an individual’s health needs through communication and available resources to promote quality and cost effective outcomes. Qualis Health complies with URAC case management standards when performing case management services. Qualis Health’s URAC accredited case management program provides a combination of assessment, coordination, recommendation, education, and support for Alaska Medicaid recipients with medically complex conditions and costly healthcare needs.

Purpose
Case management is focused on helping medically complex patients receive appropriate medical services in an efficient and cost-effective manner. A comprehensive care plan is developed in collaboration with the patient (recipient) and the patient’s family, attending physician, and other health and social service providers. This care plan outlines the patient’s needs in the most appropriate and timely manner.

In addition to working with the recipient/family, physician and other medical providers to develop a coordinated care plan, Qualis Health’s case management program for Alaska Medicaid includes the following types of activities:

- Assessing the recipient’s personal situation and challenges
- Providing information and resources to support treatment needs
- Coordinating services provided by healthcare professionals involved in the recipient’s medical treatment
- Discharge planning and assessment to support transitions of care from acute care facilities to the home environment

Special Considerations
Qualis Health provides case management services for Alaska Medicaid from our Alaska and Washington offices. We use Anchorage- and Fairbanks-based case managers to serve the unique needs of the Alaska population, and also have a Seattle-based case manager to assist with cases needing specialized services in the Seattle area.

The following special considerations apply to the case management program Qualis Health provides for Alaska Medicaid:

- Case management is a voluntary program for recipients. All recipients who agree to participate in case management are asked to sign a release of information indicating their willingness to participate in the case management process.
- Alaska Medicaid recipients are eligible for case management services regardless of location.
• Recipients who are on the Alaska Medicaid Waiver, TEFRA, and Breast and Cervical Cancer Programs are eligible to participate in case management.

• Case management services are provided telephonically, but also include appropriate on-site visits.

**Targeted Cases**

Qualis Health care management software can automatically route utilization management cases that have a condition or diagnosis on a Case Management Referral Triggers list. These cases are referred to case managers for case management screening. The types of cases often found in case management are:

- Patients with complex coordination and planning needs that include services such as durable medical equipment, home health care, wound care and pharmacy
- High-cost cases targeted by utilization review (e.g., long lengths of stay, frequent emergency and inpatient admissions)
- Burns/wounds/non-healing ulcers
- Cancer
- Cardiovascular disease
- Chronic respiratory disease
- Complicated pregnancy
- Congenital defects
- Congenital heart disease
- High-risk pregnancy
- HIV/AIDS
- Neonate less than 38 weeks or with complications
- Neurodegenerative disorders (e.g., ALS, MS, MD)
- Neurological conditions (e.g., aneurysm, meningitis, encephalitis)
- Organ and bone marrow/stem cell transplants
- Possibility of severe permanent impairments
- Rehabilitation
- Pattern of re-hospitalization
- Spinal cord injuries
- Traumatic brain injury
- Multiple trauma injuries

**Process and Procedures**

**Case Identification**

While many referrals to case management occur through the utilization management process, cases can be referred from multiple sources, including: patient self-referral, physician or other provider, discharge planner, care coordinator, Alaska Medicaid, and other state agencies. Qualis Health screens referrals utilizing criteria established in conjunction with the Department. Cases are screened by case managers and then referred to the Department for referral determination. If approved, involved parties and facilities are then notified of case management services. See Exhibit 16 for the Case Management Referral Form.
Opening a Case

Once a case has been approved by the Department, the recipient and/or family is offered the opportunity to participate in case management, and with their consent, a case is opened with further assessment performed. A case manager begins the initial case management process, which includes:

- Gathering information to help identify the healthcare needs of the recipient
- Making recommendations regarding the recipient’s healthcare needs
- Informing the recipient and healthcare team members about benefits and available resources
- Coordinating complex care needs and assisting in obtaining appropriate healthcare services

Reports are submitted to the Department illustrating case management interventions, goals and recommendations.

Provider Interface

The case manager notifies the attending physician and involved healthcare providers of the recipient’s participation in case management to assist with coordination of care needs. The case manager works collaboratively with all healthcare providers to assure all services are appropriate and medically necessary.

Case Closure

Once it is determined that case management services are no longer indicated (e.g., patient’s medical condition stable and all appropriate services in place, no ongoing needs), the case is reviewed for closure. The recipient is notified by phone and correspondence that the case is being closed.
This page intentionally blank.
Appendix A: Select Diagnoses and Procedure Review Guidelines

Appendix B: Glossary of Terms & Acronyms

Terms

**Administrative Wait Days**: Acute care bed in an urban facility where a patient can continue to receive care at a lower rate.

**Alaska Medical Assistance Program**: Aggregate title used to identify or when referring to all three medical programs, Medicaid, Denali KidCare (DKC), and Chronic and Acute Medical Assistance (CAMA), administered by the Alaska Department of Health and Social Services.

**Call Date or Call-back Date**: Notification date or date the review is conducted (same as “Review Date” or “Scheduled Discharge Date”).

**Care Management Department**: Includes the telephonic, medical record review areas and case management services at Qualis Health.

**Case ID Number**: Qualis Health certification number assigned to each case certified; eight-digit number beginning with “88.” The last six digits are assigned by the Qualis Health case management software system. This number is used on all billing or claim forms for the fiscal agent to verify the pre-certification.

**Concurrent Review**: The process of reviewing for continued medical necessity.

**Conduent State Healthcare, LLC**: Fiscal agent for DHCS.

**Disabled or Disability**: The inability to engage in substantial gainful activity by reason of a medically-determined physical or mental impairment that can be expected to result in death or that has lasted or can be expected to last for a continuous period of not less than 12 months. (Alaska Administrative Code AAC 48.598)

**Health Insurance Portability and Accountability Act**: Relating to the uses and disclosures of Protected Health Information.

**InterQual Criteria**: Evidence-based clinical review criteria that support first-level clinical review by Qualis Health clinical reviewers.

**Intensity of Services**: InterQual criteria component that means diagnostic and therapeutic services that can be provided only in a hospital.

**Non-certification**: Qualis Health decision not to authorize a service.

**Non-urgent/Emergent Procedure**: Procedure that is subject to the choice or decision of the recipient or physician regarding medical services that are advantageous to the recipient but not necessary to prevent the death or disability of the recipient.

**Pre-service Review**: The process whereby Qualis Health reviews clinical information from the provider to determine medical necessity for specific services found on the DHCS pre-certification list for recipients.

**Prior Authorization**: Authorization granted for services or medical procedures requiring prior review and approval by the state medical professionals (or designee), before such service can be performed and paid.

**Provider**: An individual, firm, corporation, association or institution providing or approved to provide medical services to an Alaska Medicaid recipient.

**Provider Contract ID**: Number assigned to each provider by Conduent State Healthcare, fiscal agent for DHCS, also known as “Medicaid Contract ID.”
**Recipient:** An individual eligible for benefits under Alaska Medicaid\(^9\).

**Retrospective Review:** All types of post-payment and/or post-admission review; recipient may or may not be eligible at the time of admission.

**Review Date:** Notification date or date review required (same as “Call Back Date” and “Scheduled Discharge Date”).

**Scheduled Discharge Date:** Notification date or date review required (same as “Review Date” or “Call Back Date”).

**Severity of Illness:** InterQual criteria component that means objective clinical findings that define severity of illness.

**Swing Bed:** Acute care bed in a rural facility where a patient can continue to receive care at a lower rate.

**Urgent Care Services:** A case is considered to involve urgent care whenever the application of the time periods for making non-urgent care determinations (a) could seriously jeopardize the life or health of the recipient or the ability of the recipient to regain maximum function, or (b) in the opinion of a physician with knowledge of the recipient’s medical condition, would subject the recipient to severe pain that cannot be adequately managed without the care or treatment that is the subject of the case.

---

\(^9\) Unless otherwise indicated, the term Medicaid refers to both Medicaid and Denali KidCare.

Exhibit 1

Pre-service Review Flow Chart

Initial Contact to Qualis Health

Basic Demographic Data Collected

Clinical information received and Medical/Surgical Necessity meets Criteria/Qualis Health Policy

 LOS Determination for Inpatient Admit

 Verbal Certification to Appropriate Parties

Non-certification Letter Sent to provider and recipient (after the attending is given the opportunity to discuss the case with the reviewing physician)

Qualis Health P/PC Determines Procedure Indicated

P/PC = Physician/Practitioner Consultant
LOS = Length of Stay
This page intentionally blank.
Exhibit 3

**Expedited Appeal Process**

1. Web, telephonic, fax or written request for expedited appeal received within two business days of receipt of initial denial.

2. QH may request copies of chart notes or medical record from provider.

3. Involved parties have 2 hours to submit more information.

4. Information received within 2 hours:
   - **NO**
   - **YES**
     - 4a. If no additional information is received, the appeal is based on information available.

5. QH sends medical records to P/PC licensed in appropriate specialty within one working day of receipt of medical records.

6. QH sends medical records to P/PC licensed in appropriate specialty within one working day of receipt of medical records.

7. P/PC upholds original determination:
   - **YES**
     - QH notifies by web or telephone and sends letters to attending physician, hospital, and patient within one working day confirming original determination with clinical rationale and information regarding Qualis Health's standard appeal process.
   - **NO**
     - QH notifies attending physician, hospital, and patient (and claims payer, as required) within one working day with authorization number and approved dates of service modifying original determination and includes clinical rationale for the service non-certified and information regarding Qualis Health's standard appeal process.

8. P/PC upholds original determination:
   - **YES**
     - QH notifies by web or telephone and sends letters to attending physician, hospital, and patient (and claims payer, as required) within one working day with authorization number and approved dates of service reversing original determination.
   - **NO**

9. P/PC Reverses original determination, approves case:
   - **YES**
   - **NO**

P/PC = Physician/Practitioner Consultant
Expedited Appeal = An appeal of non-certification in a case involving urgent care.
This page intentionally blank.
Exhibit 4

**Standard Appeal Process**

1. Request for standard appeal received within **180 days of initial denial**

2. Qualis Health informs other parties that request for appeal has been received and request clinical information to support appeal

3. Involved parties have 7 days to submit more information

4. Information received within 7 days
   - 4a. If no additional information is received, the appeal based on information available

5. QH sends medical record and/or additional information to P/PC in appropriate specialty

6. P/PC returns completed appeal review, with decision, to QH within 5 to 8 calendar days
   - 6a. P/PC upholds original determination
   - 6b. P/PC modifies original determination
   - 6c. P/PC Reverses original determination, approves case

   - YES: QH sends letters to attending physician, facility, and recipient confirming original determination with clinical rationale and information regarding next level appeal process*
   - YES: QH sends letters to attending physician, facility, and recipient modifying original determination with clinical rationale, certified dates of service, and contractor’s appeal process in the letter*
   - YES: QH sends letters with certified dates of services reversing original determination

4a. If no additional information is received, the appeal based on information available

QH sends letters to attending physician, facility, and recipient confirming original determination with clinical rationale and information regarding next level appeal process*

QH sends letters to attending physician, facility, and recipient modifying original determination with clinical rationale, certified dates of service, and contractor’s appeal process in the letter*

QH sends letters with certified dates of services reversing original determination

P/PC = Physician/Practitioner Consultant

*Review completed and letters mailed within 30 days of receipt of request to perform standard appeal

**For Alaska Medicaid if appeal is received after 180 day deadline technical denial will be issued.**

Exhibit 5

Case Management Referral Process

Referral requests received from Utilization Management Providers DHCS/Patient/Family Claims Payer or Other

Case screened against Case Management (CM) criteria

Case meets criteria? NO Case not managed

Case to DHCS for referral approval

NO

Approved? YES Proceed to Case Management Assessment Process (Exhibit 6)

Case assigned to case manager
Exhibit 6

Case Management Assessment Process

Case assigned to case manager

Case manager makes contact with patient/family

Case manager reviews program with patient/family and requests verbal consent

Patient/family signs or agrees to consent & release of information

Case Manager sends client introduction packet*

Case Manager contacts provider and/or physician to obtain current status

Case Manager discusses status with client

Case Management goals/interventions identified?

YES

Case converted to active status

Assessment completed and a report sent to Alaska Medicaid within 30 days

NO

Case status converted to not managed/closed

*Introduction packet includes Release of Information, Patient Introduction, Overview of Services, and Patient Bill of Rights
CM Care Plan collaboratively developed including:
- Short Term Goals
- Long Term Goals
- Timeframes for re-evaluation and follow-up
- Resources to be utilized
- Collaborative approaches to be used

CM goals and interventions identified?  

Future needs anticipated?  

Meets case closure criteria

Case Closed including:
- Closing letter to patient/family
- Discharge status
- Outcomes
- Final Report
- Satisfaction Survey

Case remains open/active

Case to inactive status

Updated Care Plans, reports completed every 30 days and case staffing every quarter

Updated Care Plans, reports completed every 30 days and case staffing every quarter

Approval for continued case management needed every 10 hours

Approval for continued case management needed every 10 hours

Approved?

Approved?

NO

NO

Qualis Health
Inpatient Review Concept Template

This is provided as a tool to help organize information that will help patients get medically necessary services at the right level of care and at the right time while meeting Qualis Health’s need for appropriate InterQual® documentation. Please consider the following as a guide, not a requirement or guarantee of payment for admission or for continued stay review.

### Demographics:
- Patient name, ID number
- Attending name, pager number and best time for a Qualis Health Medical Director to call if needed
- The day or dates under review

### SI (Symptom Intensity) How sick is the patient? This places the patient’s services in context with their clinical condition and is needed both for initial review and for concurrent review.
- What is the main clinical issue?
- Abnormal vital signs?
- Pain present? Where? What is cause?
- Neurological status (alert to obtunded)
- Brief description of diagnostic tests (especially if lab or x-rays are abnormal)
- Any consultations and evaluations or procedures?

### IS (Intensity of Services) What care is the patient receiving?
- IV medications and frequency
- Any IV PRN meds given for nausea, pain? How often each day?
- IV fluids/ TPN
- Blood or blood products (should have a HCT as a reason)
- Oxygen needed? FiO2 and route? ABGs done or O2 sats?
- Diet/tube feeds/gavage (What is infant's weight?)
- If patient is on a sliding scale, what were high/low glucose values? How many coverage units were given on each day (not the routine doses)?
- Wound management: describe wound and dressing/debridement/special issues
- Any other treatments or therapies?

### DS (Discharge Screens) What is the long-term plan?
- What is the expected destination after the hospitalization?
- What discharge planning activities are being done
- What care needs are there post-discharge? Educational needs?
- Are there significant psycho-social issues?
Inpatient Review Worksheet

Patient Name: ___________________________ ID #: ___________________________
Attending name/contact info*/best time: __________________________________________
Admit Diagnosis/Code __________________ Procedure Code __________________

Review covers dates from ___________ to ____________

What is the main reason the patient is in the hospital for this day/days?

__________________________________________________________________________
__________________________________________________________________________
__________________________________________________________________________

Briefly describe progress, diagnostic tests & results, consultations, evaluations.

__________________________________________________________________________
__________________________________________________________________________
__________________________________________________________________________

Briefly describe IV medications & frequency. Include IV PRN meds—esp. pain—and # of times
given per 24h.

__________________________________________________________________________
__________________________________________________________________________
__________________________________________________________________________

Briefly describe Respiratory status/treatment

Nutritional status/treatment___________________________________________

Insulin coverage/ values______________________________________________

Wound mgmt issues/frequency__________________________________________

Other treatments_______________________________________________________

Briefly describe discharge planning: expected destination, care needs, educational needs.

__________________________________________________________________________
__________________________________________________________________________
__________________________________________________________________________

*In case a Qualis Health Medical Director needs to speak with the attending, include a pager # or office
# and best time to call.

Severity of Illness
What is the illness/injury/surgery or exacerbation that has occurred within the last 30 days?
What is the mobility, ADL or respiratory impairment requiring at least minimum assistance?
Patient Name:__________________________________________

Severity of Illness (continued)

Is the patient clinically stable within the last 24 hours? Provide the temperature, heart rate, respiratory rate and BP from the last 24 hours. __________________________________________________________

Is the patient able to tolerate the comprehensive rehabilitation program of 3 hours/day or longer of skilled therapy for 5 days or greater a week? ____________________________

Is the patient able to follow visual/verbal commands?______________________________________

Does the patient desire to and are they able to actively participate? __________________________

Is the patient active in the community and home prior to admission with rehabilitation potential? __________________________________________________________

Is the patient fully participating in the therapeutic evaluation and interventions prior to transfer? __________________________________________________________

Is the admission a trial admission for 1 week or less? ______________________________________

Is the prospective assessment completed by a rehabilitation professional? _________________

Is full participation/tolerance projected? __________________________________________________

What therapies are indicated? __________________________________________________________

Is the treatment precluded in a lower level of care due to the clinical complexity? _________
Patient Name:______________________________________________

Severity of Illness (continued)
Will the physician do an assessment/intervention 3 times/week or greater? _____________

______________________________________________________________________________

Is there specialized therapeutic skills/equipment required? If so, please identify? _____________

______________________________________________________________________________

Will the rehabilitation nursing services be available 24 hours/day? ________________

______________________________________________________________________________

Intensity of Service
Will the progressive therapy program consist of at least 2 disciplines and 3 hours/day or greater and 5 days/week for:

______________________________________________________________________________

__________ ADLs
__________ Bed mobility/transfers
__________ Home lifestyle modifications
__________ Positioning/splinting
__________ Pulmonary rehabilitation
__________ ROM/strengthening
__________ Speech language retraining
__________ Swallowing retraining
__________ Wheelchair mobility/ambulation/balance

If this is an admission trial of 1 week or less, the program will provide:

__________ At least 2 disciplines and 3 hours/day or greater and 5 days/week or greater of evaluation/therapy

__________ Full participation in evaluation/therapy

__________ Rehabilitation evaluations completed within 2 days

Identify the new medical condition that decreases the patient's participation in therapy for less than 3 hours/day for up to 3 days. _______________________________________

What medical/psychosocial management is required for this patient? ________________

______________________________________________________________________________
Patient Name: ____________________________________________

Program Coordination
What is the ongoing needs assessment/procurement? ______________________________

______________________________________________________________________________

What instruction does the patient require? ______________________________

______________________________________________________________________________

What is identified as discharge needs, barriers, patient support systems? __________

______________________________________________________________________________

AK Medicaid Imaging Questionnaire

1. (Mandatory) What Imaging Procedure is being requested? (Select ONE)
   - Angiogram
   - MRI
   - PET
   - Other: Enter answer in next question

2. Enter ‘Other’ Imaging Procedure: ___________________________________________(76 char max)

3. (Mandatory) Imaging Procedure being requested to assess: (Select ONE)
   - Abdominal
   - Abdominal & Pelvis
   - Brain
   - Breast – Bilateral (see 4)
   - Breast – Left (see 4)
   - Breast – Right (see 4)
   - Cervical
   - Chest
   - Feet – Bilateral (see 4)
   - Feet – Left (see 4)
   - Feet – Right (see 4)
   - Hand – Bilateral (see 4)
   - Hand – Left (see 4)
   - Hand – Right (see 4)
   - Head
   - Lower Extremity – Bilateral (see 4)
   - Lower Extremity – Left (see 4)
   - Lower Extremity – Right (see 4)
   - Lumbar
   - Organ (see 4)
   - Pelvic
   - Thoracic
   - Upper Extremity – Bilateral (see 4)
   - Upper Extremity – Left (see 4)
   - Upper Extremity – Right (see 4)
   - Other (see 5)

4. Enter description for Breast(s), Feet, Hand(s), Lower Extremity, Organ, or Upper Extremity:
   ___________________________________________(76 char max)

5. Enter ‘Other’ Imaging Procedure to assess: ______________________________(76 char max)
6. (Mandatory) Reason for requested Imaging Procedure (include: restaging, follow up, pre/post-op, accident, rule out dx, differential dx, etc.):

7. (Mandatory) Is this request for a new condition or diagnosis? (Select ONE)
   - No: Enter date in next question
   - Yes

8. Enter date previously treated: ____________________________ (mm/dd/yyyy)

9. (Mandatory) Previous diagnostics completed: (Select all that applies)
   - Imaging (see 10 & 11)
   - Labs (see 10 & 11)
   - Surgical/Biopsy/Excision (see 10 & 11)
   - N/A
   - Other (see 12)

10. Enter Lab Values for Imaging, Labs, or Surgical/Biopsy/Excision:

11. Enter Lab Date for Imaging, Labs, or Surgical/Biopsy/Excision: ____________________________ (mm/dd/yyyy)

12. Enter ‘Other’ Previous diagnostics completed:

13. (Mandatory) Current Treatment: (Select all that applies)
   - Anti-infectives
   - Cancer > 1 year ago
   - Cancer within last 12 months
   - Chemotherapy
   - Narcotics
   - NSAIDS
   - Occupational Therapy
   - Physical Therapy
   - Speech/Language Therapy
   - Steroid Injections
   - Steroids, PO
   - Surgical (see 14 & 15)
   - N/A
   - Other (see 16)

14. Enter ‘Surgical’ description: ____________________________ (76 char max)

15. Enter ‘Surgical’ date: ____________________________ (mm/dd/yyyy)
6. (Mandatory) Reason for requested Imaging Procedure (include: restaging, follow up, pre post-op, accident, rule out dx, differential dx, etc.):

____________________________________(76 char max)

7. (Mandatory) Is this request for a new condition or diagnosis? (Select ONE)
   - No: Enter date in next question
   - Yes

8. Enter date previously treated:________________________(mm/dd/yyyy)

9. (Mandatory) Previous diagnostics completed: (Select all that applies)
   - Imaging (see 10 & 11)
   - Labs (see 10 & 11)
   - Surgical/Biopsy/Excision (see 10 & 11)
   - N/A
   - Other (see 12)

10. Enter Lab Values for Imaging, Labs, or Surgical/Biopsy/Excision:

____________________________________(76 char max)

11. Enter Lab Date for Imaging, Labs, or Surgical/Biopsy/Excision:________________________(mm/dd/yyyy)

12. Enter ‘Other’ Previous diagnostics completed:

____________________________________(76 char max)

13. (Mandatory) Current Treatment: (Select all that applies)
   - Anti-infectives
   - Cancer >1 year ago
   - Cancer within last 12 months
   - Chemotherapy
   - Narcotics
   - NSAIDS
   - Occupational Therapy
   - Physical Therapy
   - Speech-Language Therapy
   - Steroid Injections
   - Steroids, PO
   - Surgical (see 14 & 15)
   - N/A
   - Other (see 16)

14. Enter ‘Surgical’ description:____________________________________(76 char max)

15. Enter ‘Surgical’ date:____________________________________(mm/dd/yyyy)
16. Enter ‘Other’ current treatment: ____________________________ (76 char max)

17. Enter Date Current Treatment Started: _________________ (mm/dd/yyyy)

18. (Mandatory) Previous Related Treatment: (Select all that applies)
- Anti-infectives
- Cancer >1 year ago
- Cancer within last 12 months
- Chemotherapy
- Narcotics
- NSAIDS
- Occupational Therapy
- Physical Therapy
- Speech-Language Therapy
- Steroid Injections
- Steroids, PO
- Surgical (see 19 & 20)
- N/A
- Other (see 21)

19. Enter Surgical’ description: ____________________________ (76 char max)

20. Enter ‘Surgical’ date: _________________ (mm/dd/yyyy)

21. Enter ‘Other’ previous related treatment: ____________________________ (76 char max)

22. Enter Date Previous Treatment Ended: _________________ (mm/dd/yyyy)

23. (Mandatory) Is future Imaging Procedure(s) anticipated? (Select ONE)
- No
- Yes: Explain in next question

24. Enter explanation for future anticipated Imaging Procedures:
   ____________________________ (76 char max)

25. (Mandatory) Brief description of patient’s Plan of Care or Treatment Plan:
   ____________________________ (76 char max)

26. (Mandatory) Other information to be considered for this Imaging Procedure review:
   ____________________________ (76 char max)
Retrospective Review Request Form
Providers with no access to the Qualis Health Provider Portal may use this form. See Section 8 of this manual for additional information
